EXPERIENCE

Observatorio Territorial de Navarra - Nasuvinsa, Pamplona, Spain

Public policy quantitative analyst

September, 2024 - present

Responsible for developing and implementing a data-driven strategy to evaluate and monitor Government of Navarra policies focused on rural development and social inclusion, aligned with the European Commission's Rural Vision to combat rural depopulation.

Duties:

- Literature review of national and international evidence on rural development measures oriented at mitigating rural depopulation;
- Conduct comprehensive analysis of territorial, economic, social, and gender-disaggregated data to support the design and monitoring of territorial cohesion policies;
- Apply statistical and machine learning techniques to develop risk indicators proxying municipalities' risk to depopulation;
- Build partnerships and collaborate with academic institutions, statistical offices, and other stakeholders to foster knowledge-sharing and advance integrated rural transformation initiatives;

TEACHING EXPERIENCE	University of Navarre , Pamplona, Spain <i>Main instructor</i> Responsible for teaching, curriculum development, materials preparation, student evaluation, and academic administrative tasks. - Python programming for data analysis (Spring 2025); - Quantitative methods II (Spring 2024) - Compared Political Systems (Spring 2023)
